Is my data secure with the Permission Agent?

Permission Support - 2025-10-08 - [Permission Agent](#)

Yes. Your data profile is stored in a highly secure, encrypted environment designed for maximum privacy and protection.

- End-to-end encryption protects your data in transit and at rest.
- Granular access controls ensure that only authorized systems can interact with your profile.
- Segregated data storage keeps your information isolated from unrelated systems.
- Continuous monitoring and threat detection safeguard against unauthorized access.

We never share your data without your explicit consent, and every approved interaction is logged with full transparency. The Permission Agent is built from the ground up to protect your information while enabling you to earn from it confidently.
